

# Sreejith Haridas

Web developer with 10+ years of experience, focusing on front-end and full-stack roles for the past 4–5 years. Proficient in React.js, Vue.js, JavaScript, TypeScript, RESTful APIs, and GraphQL. Passionate about building scalable, high-performance web applications.

## EXPERIENCE

### Al Marwan Group, Dubai, UAE — Sr. Frontend Developer

Sep 2022 - Jan 2025

- Spearheaded the front-end development of a multilingual and multi-currency eCommerce platform using Vue Storefront, a headless framework built on Nuxt.js, with Typescript and leveraging GraphQL for efficient API data fetching.
- Development of web applications using Next.js. Utilized Tailwind CSS for responsive design and implemented efficient static generation and routing, contributing to a seamless user experience.
- Optimized website performance by implementing SEO best practices, lazy-loading images, minimizing JavaScript execution, and improving server response times — resulting in up to a 40% reduction in page load time and a measurable boost in Core Web Vitals scores.

### Rhinos ME DMCC, Dubai, UAE — Frontend Developer

May 2019 - Aug 2022

- Developed dynamic and responsive full-stack web applications using the MERN stack, implementing efficient APIs, interactive user interfaces, and scalable backend architectures. Utilized Redux for state management and optimized performance to deliver seamless user experiences.
- Engineered front-end interfaces for Laravel applications using React.js/Vue.js, utilizing SASS and Bootstrap for streamlined, scalable design.
- Front-end development of eCommerce platform using Vue Storefront, integrating Elasticsearch for backend support and Express.js for API connectivity.

### Realopedia DMCC, Dubai, UAE — Software Engineer

Jul 2017 - Apr 2019

- Developed and maintained a property portal using a custom PHP MVC framework, transitioning to Laravel for the latest version of the site. Key achievements include reducing API response times through efficient data handling, code, and query optimizations.
- Created robust APIs for integrating third-party services, including RETS
